The Youth Coalition of the ACT acknowledges the Ngunnawal people as the traditional owners and continuing custodians of the lands of the ACT and we pay our respects to the Elders, families and ancestors.

We acknowledge that the effect of forced removal of Indigenous children from their families as well as past racist policies and actions continues today.

We acknowledge that the Indigenous people hold distinctive rights as the original people of modern day Australia including the right to a distinct status and culture, self-determination and land. The Youth Coalition of the ACT celebrates Ngunnawal culture and the invaluable contribution it makes to our community.

The Youth Coalition of the ACT (Youth Coalition) is the peak youth affairs body in the Australian Capital Territory and is responsible for representing the interests of people aged between 12 and 25 years of age and those who work with them. The Youth Coalition works to actively promote the well being and aspirations of young people in the ACT with particular respect to their political, cultural, economic and social development. The Youth Coalition is represented on many ACT advisory structures and provides advice to the ACT Government on a range of issues related to young people and youth services. ## Capital Initiatives Overview

The Youth Coalition of the ACT, the peak body for youth affairs, acknowledges the challenges faced by the ACT Government in developing the ACT Budget 2011-2012 and welcomes the announcement of funding for some key initiatives.

However, the Youth Coalition is disappointed that overall the Budget has not addressed some of the biggest issues facing young people in the ACT community, such as affordable housing, mental health services, and engagement with education, training, and employment.

The ACT Budget 2011-2012 contains a number of promising gains for young people, with a particular focus on out of home and kinship care, and investment in diversion from detention and engagement with the criminal justice system.

Some of the key capital initiatives for young people include:

### Housing ACT

---

- Expansion of Social Housing

### Education and Training Directorate

---

- CC Cares Program Design

### Canberra Institute of Technology

---

- New CIT Learning Centre

While the promising new spending initiatives are welcomed, much of the detail is still to come. We implore the ACT Government to take the opportunity to engage with young people, their families, community youth services, and allied community service (such as family support, mental health, alcohol, tobacco, and other drug services) to identify the best ways in which these resources can be utilised in the Canberra to benefit young people and their families.

The Youth Coalition is pleased that the ACT Budget 2011-2012 addresses some gaps in services, with significant spending commitments, and we look forward to working with the ACT Government and other community stakeholders in implementing the initiatives from this budget that relate to young people and youth services.

The Youth Coalition of the ACT's ACT Budget 2011-2012 Analysis is divided into three parts:

- Part 1: Overview and Media Releases

- Part 3: Capital Initiatives (this document)
